- Sound at home was not always clear

- cases of wrong experience with AI needed
- Risks - more

- Lack of regulations of AI in Portugal

- Lack of PhD ~~students~~ involved

- Pity about low attendance today

- Outcome or objective of event?

Wider dissemination would be good

Interaction with those online

Get the PhD students involved (masters as well)

Linked In Portform to reach wider

Internet went down a little during the talks.

- Involvement from senior University

- Q&A after some talks or pannel opertunity.

Good format: presentations + discussions

Program well built with different aspects - blocks

Shorter presentations? Also time needed to have Q to speakers.

Some discussions (PM 1st day) were too Technical. for broad public

V interaction → "food for thought"

Will be good to have written summary / lessons learned.

We look forward to the afternoon program

+ excellent presentations
+ international guests/ from other universities
+ ICA's involvement
+ overview of opportunities, application and challenges of AI use

- ~~Lack of~~ Not so much on the use of AI on research project development (project construction, data collection and processing, project management, ...)

Suggestion
↳ Share conclusions with the University
↳ involve other schools in future initiatives
